

We're Good To Go which means you can be certain that the Hastings Fishermen's Museum is following government and industry COVID-19 guidelines, has a Risk Assessment in place and a process to maintain cleanliness and aid social distancing.

Your visit to the museum will be a little different at the moment while we work through this transition period.

- For the time being access to the boat will be restricted
- And our film corner won't be live to prevent people gathering in that small area. However we have made these available to watch on our website <https://www.ohps.org.uk/gallery-film-corner-online/>

We have implemented a few changes around the museum to help make your visit as comfortable as possible for you and for our staff:

- Firstly, we ask, please postpone your visit if you have any symptoms of a cough, sneezing or generally feeling unwell, however mild (Please follow this link for further information <https://www.nhs.uk/conditions/coronavirus-covid-19/symptoms/>)
- We will ask you to wait at the door before entering
- Speak to a member of staff to complete a track and trace form\* and sanitize hands
- For everyone's convenience please follow the floor markings and direction arrows
- Please use the hand sanitizer provided around the museum
- Please be kind to staff as these are not our restrictions, they are in place to protect us all and keep this much loved attraction open.

Other than those few things everything is the same! Everything has been deep cleaned, the floor has been painted and *Enterprise* has been spruced up to make her last for many more years to come. In short, the museum looks amazing, please come and see us!!
