HASTINGS FROM THE SEA.

The View of Hastings from the Sea has often furnished a picture for the artist. The old Castle, which stands prominently in the above view, is rich in historic interest, and as a relic of bygone days it is looked upon as an interesting object both by inhabitants and visitors, whilst the rows of handsome houses sheltered under the cliff, form a pleasing picture. Hastings, itself, is known to be one of the healthiest resorts for invalids, as is testified as such by the numbers who visit the town, and receive great benefit by its salubrious climate. Warmer in winter and cooler in summer than perhaps any other watering-place on coast of Hastings and St. Leonards will always hold their own. The town is fortunate in having pretty walks and drives, whilst amusements in the Pier Pavilion, the New Theatre, the Music Hall, and Warrior Square Concert Hall, tend to add to its attraction as a watering-place.
